African American Buying Power

ADVERTISING TO THE AFRICAN AMERICAN/BLACK MARKET

The power of African-American/Black spending is evident across many categories.

MARKET FACTS

- African Americans/Blacks account for more than 30% of industry spending in the \$4 billion hair market.
- According to the Selig Center, 63% of African-American/Black households own a vehicle that was purchased used, and 37% own a vehicle that was purchased new.
- African-American/Black consumers spend more on telephone services than any other consumer group. Their expenditures in this category total \$918 annually, or 8.1% more than the average.
- According to a 2001 study by Cotton Incorporated, African-American/Black consumers will spend an average of \$1,427 on clothing per year for themselves — \$458 more than the average consumer.
- Within the entertainment category, African-American/Black consumers allocate nearly twice as much money than the average U.S. consumer to purchase TV, radios and sound equipment (59.6% vs. 32.2%).
- According to Linda Crowder, ethnic marketing group director at Kraft Foods in Northfield, IL, the average African-American/Black family spends 30% more on weekly groceries than the U.S. population at large.

DID YOU KNOW?

African-Americans/Blacks are more likely than the average U.S. consumer to:

- Place a high premium on the status of owning tangible items
- Want to dress in the latest fashions in order to enhance appearance
- Spend more for what is perceived as "the best" — 64% vs. 51% of Caucasians
- Be brand loyal and rely upon certain brands to help them make informed purchase decisions.
